**VILLAGE OF PUT-IN-BAY PLANNING COMMISSION
AREA VARIANCE FINDING OF FACT**

Application# _____

The factors or standards to be considered and weighed for an area variance include, but are not limited to the following:

1. Whether the property in question will yield a reasonable return or whether there can be any beneficial use of the property without a variance.

2. Whether the variance is substantial.

3. Whether the essential character of the neighborhood would be substantially altered or whether adjoining properties would suffer a substantial detriment due to the variance.

4. Whether the variance would adversely affect the delivery of governmental services (for example: water, sewer, garbage, etc.)

5. Whether the property owner purchased the property with knowledge of the zoning restriction.

6. Whether the property owner's predicament feasibly can be prevented through some method other than a variance.

7. Whether the spirit and intent behind the zoning requirements would be observed and substantial justice done by granting the variance.
